DEPARTMENT OF INDUSTRIAL IOT

PRIYADARSHINI COLLEGE OF ENGINEERING, NAGPUR-440019

2026-2027

VISION OF THE INSTITUTE

To become one of the India's leading engineering institutes in both education and research. We are committed to provide quality and state of the art technical education to our student, so that they become technologically superior and in turn contribute for creating a great society.

MISSION OF THE INSTITUTE

i. Fostering a dynamic learning environment that equips students with Technical expertise, problem-solving skills and a deep commitment to ethical practices.
ii. To cultivate a culture of innovation, incubation, research and entrepreneurship that drives technological advancements.
iii. To uphold the spirit of mutual excellence while interacting with stake holders of our Institutional ecosystem.
iv. Promoting lifelong learning, professional growth and ensuring holistic development of students and the well being of society.

VISION OF THE DEPARTMENT

To develop center of excellence which will produce graduates with strong technical and industry-oriented knowledge needed to achieve distinction in the discipline.

MISSION OF THE DEPARTMENT

i. To guide, motivate and enrich student's knowledge and skills towards development of Industrial IoT.
ii. To achieve the excellence in various domains like workforce, higher studies or lifelong learning.
iii. To strengthen links between industry through partnership and collaborative development works.

Program Outcomes (POs)

PO1: Engineering Knowledge: Apply knowledge of mathematics, natural science, computing, engineering fundamentals and an engineering specialization as specified in WK1 to WK4 respectively to develop to the solution of complex engineering problems.

PO2: Problem Analysis: Identify, formulate, review research literature and analyze complex engineering problems reaching substantiated conclusions with consideration for sustainable development. (WK1 to WK4)

PO3: Design/Development of Solutions: Design creative solutions for complex engineering problems and design/develop systems/components/processes to meet identified needs with consideration for the public health and safety, whole-life cost, net zero carbon, culture, society and environment as required. (WK5)

PO4: Conduct Investigations of Complex Problems: Conduct investigations of complex engineering problems using research-based knowledge including design of experiments, modelling, analysis & interpretation of data to provide valid conclusions.(WK8).

PO5: Engineering Tool Usage: Create, select and apply appropriate techniques, resources and modern engineering & IT tools, including prediction and modelling recognizing their limitations to solve complex engineering problems. (WK2 and WK6)

PO6: The Engineer and The World: Analyze and evaluate societal and environmental aspects while solving complex engineering problems for its impact on sustainability with reference to economy, health, safety, legal framework, culture and environment. (WK1, WK5, and WK7).

PO7: Ethics: Apply ethical principles and commit to professional ethics, human values, diversity and inclusion; adhere to national & international laws. (WK9)

PO8: Individual and Collaborative Team work: Function effectively as an individual, and as a member or leader in diverse/multi-disciplinary teams.

PO9: Communication: Communicate effectively and inclusively within the engineering community and society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations considering cultural, language, and learning differences

PO10: Project Management and Finance: Apply knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member and leader in a team, and to manage projects and in multidisciplinary environments.

PO11: Life-Long Learning: Recognize the need for, and have the preparation and ability fori) independent and life-long learning ii) adaptability to new and emerging technologies and iii) critical thinking in the broadest context of technological change. (WK8)

Program Educational Objectives: (PEOs)

i. To provide graduates with a solid foundation in mathematical, scientific and engineering fundamentals required to formulate, analyze & solve complex Engineering problems.

ii. To create graduates with technical expertise to handle multi-disciplinary projects and with ability to excel in professional career and/or higher education.

iii. To Inculcate leadership qualities among graduates with ethical responsibilities and global security awareness.

Program Specific Outcomes

i. The ability to develop problem solving skills through programming techniques using appropriate principles and concepts of Internet of Things.

ii. Develop the understanding of various IOT application development tools and its implementation for industry applications.

Department of Industrial IOT

CERTIFICATE

This is to certify that project report entitled -**"PROJECT TITLE"** is a bonafide work done by the students **PROJECTEES NAME.**

The project report is submitted to **PRIYADARSHINI COLLEGE OF ENGINEERING NAGPUR,** an Autonomous Institute Affiliated to Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur in partial fulfillment of the requirements for the degree of Bachelor of Technology in (Industrial IOT) for Session 2026-2027

DECLARATION

We, the undersigned, declare that the project entitled **"PROJECT TITLE",** being submitted in partial fulfillment of the requirements for the degree of Bachelor of Technology in (Industrial IOT), Priyadarshini College of Engineering Nagpur, an Autonomous Institute Affiliated to Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur is the work carried out by us.

Place: Nagpur

Date:

PROJECTEES:

NAMES OF PROJECTEES-

ACKNOWLEDGEMENT

It is our pleasure to acknowledge our sincere thanks with a deep sense of gratitude towards our project guide **"Guide Name"**, Professor/ Associate Professor/Assistant Professor, Industrial IOT, Department for her/his continuous knowledge and support in conducting this dissertation work. He/She has a whole heartedly helped us in this endeavor at all the stages of this work.

We would like to express our sincere gratitude to **Dr. S. A. Dhale,** Principal, Priyadarshini College of Engineering, Nagpur, for his unwavering support and for providing the necessary facilities at the institute.

Our heartfelt thanks also go to **Dr. G. M. Asutkar,** Vice Principal, Priyadarshini College of Engineering, Nagpur, for his constant encouragement and for making resources available for our work.

We are deeply grateful to **Dr. A.B. Jirapure,** Head of the Department of Industrial IOT, Priyadarshini College of Engineering, Nagpur, for his invaluable guidance and for offering the necessary support throughout this project.

I extend my heartfelt thanks to **[Guide's Name][Name of the company]** for sharing his technical expertise and guiding me through every stage of this industrial project.

We also take the opportunity to thank all, who have directly or indirectly extended help and encouragement in executing this project.

Chapters

Course outcomes of the project are given below.

By the end of the Project, the students will be able to

CO1	Identify and define a complex engineering problem with clear project objectives and scope, considering societal and environmental aspects.
CO2	Apply engineering knowledge, modern tools, and relevant technologies to design, develop, and implement an effective solution or system.
CO3	Analyze and interpret data/results critically to evaluate the performance of the proposed solution using appropriate validation techniques.
CO4	Work effectively as an individual and as a team member, demonstrating professional ethics, communication skills, and project management abilities.
CO5	Prepare and deliver technical documentation and oral presentations with clarity and precision, adhering to engineering standards and practices.
CO6	Reflect on lifelong learning by identifying gaps in knowledge, exploring recent advancements, and proposing further improvements in the project
